

SAMER ABD ALLAH ABD ALGANI

Technical Program Manager (TPM) | Senior Solution Architect

Location: Kuwait, Salmiya | **Mobile:** +965 51453517 | **Email:** smsssamer@live.com |

LinkedIn: linkedin.com/in/janfu39474

PROFESSIONAL SUMMARY

Results-oriented Technical Program Manager with over 10 years of experience driving high-impact technology initiatives for government and enterprise sectors. Expert in bridging the gap between engineering, product, and business teams to execute complex projects on time and within scope. Proven track record of managing national-scale programs, identifying critical paths, and mitigating risks to ensure successful delivery. Experienced in financial integrations (Payment Gateways) and e-commerce platforms.

CORE COMPETENCIES

- **Program Management:** Roadmap Planning, Scope Definition, Risk Management, Resource Allocation, Stakeholder Communication.
- **Technical Leadership:** SDLC Management, CI/CD Process Improvement, Azure Cloud Strategy, Microservices Delivery.
- **Cross-Functional Alignment:** Vendor Management, Business Requirement Analysis, Agile/Scrum Facilitation.
- **Domain Expertise:** Government Systems, E-commerce, Payment Gateway Integration, Financial Workflows.

PROFESSIONAL EXPERIENCE

Master Works | Riyadh / Remote (Based in Kuwait)

Technical Program Lead / Solution Architect | May 2024 – Present

- **Program Delivery:** Drive the planning and execution of enterprise cloud solutions, coordinating across distributed engineering teams to ensure alignment with business goals.

- **Stakeholder Management:** Serve as the primary technical liaison for C-level stakeholders, translating business goals into actionable technical milestones and roadmaps.
- **Process Improvement:** Championed operational excellence by implementing Azure DevOps pipelines, reducing deployment friction and ensuring high-quality release cycles.
- **Risk Mitigation:** Identified scalability risks early in the design phase and led the migration to containerized (Kubernetes) environments to ensure long-term stability.

Kuwait Civil Service Commission | Kuwait

Senior Technical Consultant (Program Lead) | Mar 2023 – Apr 2024

- **Large-Scale Execution:** Managed the end-to-end delivery of the National Employee Portal, a complex program integrating data from multiple government entities.
- **Conflict Resolution:** Partnered with cross-functional teams to resolve dependency conflicts between legacy systems and modern mobile/web applications.
- **Operational Excellence:** Standardized development and release workflows across teams, resulting in improved predictability and faster time-to-market.
- **Strategy:** Developed strategic response plans for emergency use-cases, balancing short-term urgent needs with long-term system integrity.

Public Authority of Manpower | Kuwait

Senior Technical Consultant | Mar 2020 – Feb 2023

- **Integration Program:** Led a high-impact integration program connecting PAM systems with external government databases, ensuring 100% data compliance and accuracy.
- **Team Leadership:** Fostered collaboration across diverse technical teams, mentoring members to improve velocity and adoption of agile methodologies.
- **Success Metrics:** Defined and monitored program success metrics, successfully reducing release cycle times and improving deployment stability.

BARAMJK (برام ج ك) | Kuwait

Development Team Lead | Jan 2019 – Jan 2020

- **E-commerce Program:** Managed a 12-member team delivering a Multi-Vendor E-commerce Platform, overseeing the integration of financial payment gateways and tracking systems.
- **Agile Delivery:** Implemented Agile/Scrum methodologies to streamline complex workflows, resulting in a 20% increase in conversion rates through targeted UX improvements.

EDUCATION

Bachelor of Science in Computer Science

National Ribat University, Sudan

TECHNICAL SKILLS

- **Methodologies:** Agile, Scrum, Waterfall, Kanban.
- **Tools:** Azure DevOps, Jira, Git, Microsoft Project.
- **Tech Stack:** .NET, Cloud (Azure), Mobile (iOS/Android), SQL.
