Professional Summary

Senior Web & Mobile Developer with 10+ years of proven experience in system analysis, design, and development. Currently residing in Kuwait with extensive experience delivering large-scale government systems for the Kuwait Civil Service Commission and Public Authority of Manpower. Expert in the Microsoft .NET ecosystem (C#, ASP.NET) and Mobile Development (iOS Swift, Android Java, Cross-Platform). Proven track record of integrating complex government workflows (Civil ID/Integration), optimizing system performance, and managing full software life cycles from requirements gathering to IIS deployment.

Technical Skills (Aligned with Job Requirements)

- **Web Development:** ASP.NET, C#, .NET Framework, MVC/Core, REST APIs, JSON, XML, HTML5, CSS, Bootstrap, JavaScript, jQuery.
- **Mobile Development:** iOS (Swift), Android (Java/Kotlin), Cross-platform Mobile Applications (React Native, Ionic).
- **Database & Tools:** Microsoft SQL Server, RDBMS, Visual Studio, Azure DevOps, TFS/Git, IIS Management.
- **Systems & Integration:** Government System Integration, Web & Mobile Performance Optimization, Secure Data Exchange.

Professional Experience

Master Works | Riyadh / Remote (Based in Kuwait)

Senior Solution Architect / Lead Developer | May 2024 – Present

- Lead the design and development of enterprise-grade web and mobile solutions using .NET and Cloud technologies.
- Manage full system lifecycles, including requirements gathering, system analysis, and production deployment on IIS/Azure.
- Ensure application security, data integrity, and performance optimization for high-traffic enterprise systems.

Kuwait Civil Service Commission | Kuwait

Senior Software Consultant | Mar 2023 – Apr 2024

- Government Integration: Led the development of the national employee portal, integrating the CSC system with other government entities to streamline operations.
- Mobile & Web: Developed and maintained web and mobile applications (iOS/Android) for public sector services, ensuring responsive design and user-friendly interfaces.
- Deployment: Managed repositories, version control (Git/TFS), and automated release processes to ensure stability in production environments.
- Support: Provided technical support, troubleshooting, and ongoing enhancements for critical government workflows.

Public Authority of Manpower | Kuwait

Senior Software Consultant | Mar 2020 – Feb 2023

- Large-Scale Systems: Oversaw the development and maintenance of mission-critical mobile and backend applications using Java and .NET.
- Integration: Led high-scale integration projects between PAM systems and external government databases (aligned with PACI/Hawiti integration requirements).
- Optimization: Improved deployment stability and reduced release cycle times through rigorous testing and performance tuning.
- Documentation: Prepared technical documentation and collaborated with cross-functional teams to translate user requirements into system functionalities.

Pexel Systems | Kuwait

Team Leader / Senior Developer | Mar 2016 – May 2019

- Directed the development of cloud and mobile applications using ASP.NET MVC/Core and cross-platform mobile frameworks.
- Managed SQL databases and utilized Visual Studio for full-stack development.
- Coordinated development teams to deliver high-quality solutions on time, handling multiple projects simultaneously.

Education

Bachelor of Science in Computer Science

National Ribat University, Sudan | 2010
